

## **Eternal Mystery**

by Nancy

No dream of mine could fashion you  
And yet I dreamed

No fantasy of mine could call you forth  
And yet I longed for who you are

Were you afraid to say a prayer  
Think a wish of what might be  
If only

Perhaps our halting dreams and prayers  
Drifting  
Caught an angel's feathered wing  
And  
Borne away to Heaven  
Settled first in line for blessing

Did He smile to see it  
Had He waited  
Known exactly what He'd do

Entrusting us

Each  
To the other  
Forevermore

Now  
When I sense my Vincent's awe  
Reflected in his glance  
Marvel at the love we share  
In every whispered word  
And kiss  
There may be times we smile and say  
How can this be  
Still  
We know  
Oh, we know

The wonder of our gift

Love's eternal mystery  
Revealed  
Lives

In us

in us, my forever love
